BESPOKE PRINTING SERVICE

Through our bespoke service we give you and your images individual attention. We work with you to make the most of your photographs and get final prints that you are 100% happy with.

PLANNING AN EXHIBITION?

The team at Photographique have all exhibited their own work, so we understand the pressure of exhibiting and the importance of getting it right. We can help you in every aspect from image selection and editing, to make the most of your images, to producing final prints and frames. We have supplied full exhibitions for clients across the UK, from solo shows to large competition exhibitions.

SPECIALIST FILM SERVICES

We understand that film photography offers a massive and ever-increasing variety of special effects and formats. Whilst this makes photography more interesting and fun not all labs can cope with anything more than films from standard format cameras. At Photographique we pride ourselves in creating services to match the demands of the latest and the oldest techniques. As a Lomography stockist we appreciate the desired effect of their range of cameras and because of this we process films from all over the UK.

C-TYPE PAPER

Fujifilm Crystal Archive paper has long been the industry standard for producing stunning C-type photographic prints. At Photographique we stock Crystal Archive Supreme paper. This is heavier and more durable than the standard Crystal Archive paper stocked in most labs. It is available in Lustre or Glossy finish.

C-TYPE PEARLESCENT PAPER

Fujifilm DP2 Pearlescent paper gives your prints the edge. With its near metallic finish, super sharpness and almost 3D effect this paper is suitable for a wide range of images from portraits to urban landscape. Give it a try.

SCANNING

The Fujifilm SP3000 is the latest in professional grade film scanner designed to produce the optimal quality scans from any 35mm, 110, 120, 126, 127, APS negatives or slides.
