August 2011

Instore digital photo kiosks

Easy upload of images from:

SD card	CF card	MM card	MSD card	MSP card
XD card	SM card	ZIP disc	CD/DVD	USB stick

Easy editing including:

colour adjustment	contrast adjustment
brightness adjustment	black and white mode
sepia mode	zoom and crop functions

Cropping/print size check:

indicates cropped area	fit-to-paper option
------------------------	---------------------

Other functions include:

index print	CD burn
paper finish selection	Bluetooth connectivity
Easy touchscreen control	

Order prints online

Save yourself a journey - order your digital prints from home. The online kiosk can be accessed via www.photographique.co.uk. The intuitive software makes it an easy and cost effective way to order photos from anywhere in the UK.

Mail order

Digital and film orders can be sent by post - you can [download a postal order form](#) from our website. Completed orders can then be collected from the store or sent Recorded Delivery for £5. For delivery, please include full details of the services required and your contact details. We will call you and take payment by credit or debit card.

Service Times

C41 film and digital services: 24 hour, 2 hour and 30 minute services

Black and white services: 7-10 working days from day of order

E6 slide services: 7-10 working days from day of order

File preparation

To print at Photographique please ensure your files are as follows:

JPEG or TIFF format	8 bit colour depth
RGB	at least 400k

ICC colour profiles are available to [download](#) from our website. Although it is possible to spend a lot of money on monitors and a lot of time calibrating, we recommend that you simply have some images printed and use these to guide your editing.

C-type prints. All sizes will print identically on the same paper. A 3.5x5 print will cost you as little as 10p.

Giclée prints. Proof prints available with a reduction if a full print is ordered.

Liability

Photographique takes every care in the handling of customers' work. The company will, however, not accept liability beyond the cost of the original materials. Should the work have any intrinsic value beyond the cost of the original material itself then we will assume that insurance to the extent of that value has been independently acquired.

Copyright

To reproduce photographic images without the permission of the photographer/owner is a breach of copyright rules. We accept work on a basis of trust and have to assume permission is implicit.

Service time. Availability of services.

Service times are published in good faith but may be affected by matters beyond the control of the company. All services are subject to availability and we will not accept liability for consequential loss suffered due to the temporary unavailability of a service or unforeseen extension to any service time.

All prices are inclusive of VAT at 20%.

Prices correct as of August 2011. Prices are subject to change without notice. E&OE

Photo Restoration

Damaged and faded prints can be restored. Prices start at £10. Full quotation on examination of print/s.

Please note

Photographique makes every effort to ensure scans are as dust-free as possible. However it is possible that some post-production will be required before scans are used.

The SP3000 is Fujifilm's latest professional grade film scanner designed to produce the optimal quality scans from any 35mm or 120 negative or slide.

The SP3000 incorporates Fuji's Image Intelligence technology which is the result of 70 years of developing image analysis and evaluation technologies. For more information on Image Intelligence look at www.fujifilm.com/image_intelligence

Photographique's popular Galerie frame range is now available in a choice of over 20 sizes, ranging from 4x6 inches up to A1.

Sizes are in inches/A size and refer to the aperture of the mount.

All black and light oak polcore resin frames come complete with a high quality white mount with a black core which make the range distinctive. The frames up to and including 12x18 are made from the same high-density durable resin. The larger frames are made from a slightly larger moulding.

Discounts for bulk quantities are available.

Bespoke framing

Photographique works with a framer with 30 years experience to produce bespoke frames with a wide range of mouldings and mount boards to choose from.

Custom-sized frames are available to order - allow 7-14 days.

Alternative mount colours are available - allow 7-14 days.

Please email contact@photographique.co.uk with your requirements.

canvas wraps, mounting and display options

Canvas wraps

Canvas wraps are hand-made in Bristol. Any size can be ordered. Edges can be single colour or images can be wrapped around. Diptych/triptych/multiple canvases also available. Service time up to 14 days.

Size (in)	Size (mm)	Canvas
8x12	203x305	£29
